Education

Pratibha College of Commerce and Computer Studies

Bachelor of Computer Application

June 2019 - April 2022

Pune, India

Experience

App-Scoop

Software Development Engineer-1

May 2023 - Present

Gurgaon, India (Remote)

- Collaborated on a social-media project aimed at streamlining post automation processes.
- Increased efficiency by 10% through the automation of posting processes, resulting in smoother content delivery and improved engagement metrics.
- Used Jenkins for continuous integration, automating code deployment and testing. Decreased build and test time by 15%, improving the development pipeline and team productivity.
- Facilitated seamless integration and efficient communication among system components, resulting in a 50% reduction in system downtime.
- Spearheaded the implementation of 10+ new features, enhancing the platform's capabilities and user experience.

Zerot Energy

Backend Developer

January 2023 - April-2023

Pune, India

- Developed and maintained micro-services using Java Spring Boot, resulting in a 30% reduction in response time and a 20% increase in service availability.
- Conceptualized and implemented a graph database using Neo4j, enhancing query response time by 50% and reducing data retrieval time by 40% compared to the previous Firebase-based solution.
- Participated in code reviews, mentored Interns, and contributed to the development of internal tools and frameworks, resulting in a 30% increase in code quality and a 25% reduction in bug reports.

Kleem Research And Marketing

Associate Software Developer

June 2021 - Jan 2023

Pune, India

- Designed and developed 3+ web applications using Angular and Spring-Boot, leading to improved user experience and increased client satisfaction.
- Integrated web services with Angular 8 to efficiently render JSON data on the user interface, resulting in a 20% reduction in page load time and improved application performance.
- Optimized and managed user-inputted data across 3 platforms using MySQL database with 99.99% uptime, decreasing user error by 25% and increasing load time by 40%.
- Bolstered security in Angular and Spring-Boot apps with authentication and authorization protocols, ensuring data privacy and thwarting unauthorized access. Achieved a 30% decrease in security vulnerabilities, enhancing client trust.

Technical Skills

Languages: Java, JavaScript, Typescript, SQL

Frameworks: Spring Boot, Angular

Database: MySQL, PostgreSQL, MongoDB, Neo4j

Technologies/Tools: Linux, Jenkins, GitHub, Apache Tomcat, Vim, AWS, Azure

Certification/Courses

Microsoft Certified: Azure Fundamentals

Coursework: Cloud Computing, Azure services, Management tools, Security solutions, etc

✓ [Verify](#)

Java programming

Coursework: Oops, JUnit, Debugging, Networking, JDBC, Hibernate, Exception handling, etc

✓ [Verify](#)

Angular Complete Guide

Coursework: Components, Data Binding, Routing, Debugging, Services, Dependency

✓ [Verify](#)
